

KONE UniSwing[®] operators

IMPROVED ACCESSIBILITY AND CONVENIENCE

The KONE UniSwing package is suitable for upgrading the operator element of existing swing doors, for automating manual swing doors, and for new door installations. Plug-and-play installation means that the door will be up and running quickly and with minimum disruption. The easy-to-program operator ensures smooth, quiet opening and closing, and improves building accessibility, convenience, and safety.

Door operation

KEY BENEFITS

- **Accessibility and people flow** – automated swing doors improve building accessibility and convenience by ensuring safe, easy access for all users, including wheelchair users, elderly people, and those carrying large or heavy items.
- **Flexibility** – swing doors can be operated with push buttons, elbow pads, and sensors and can be integrated with KONE Access™ solutions for maximum security and convenience.
- **Durability** – the modern operator ensures reliable long-term operation.

A solution for every building need

- KONE UniSwing™ Compact is a space-saving solution for all standard swing doors
- KONE UniSwing™ Solid includes spring return for closure during power failures
- KONE UWD 2200 for heavy doors with high usage levels
- KONE UniSwing™ FireSafe for fire-rated doors; EN 1154 and EN 1155 compliant
