

KSS 700 – BUILT FOR TODAY, READY FOR TOMORROW

The flush-mounted KSS 700 signalisation family for residential and commercial buildings is a revolution in lift design. Its modular structure means you can swap out different elements – such as the faceplate, display and even buttons – to add new functions and create a unique look and feel.

KONE SIGNALISATION

Our versatile and modern signalisation range has everything you need to ensure clear guidance and make lifts as easy as possible for people to use. It includes flush and surface-mounted devices with a huge variety of options to cater for every possible design vision and practical requirement, including vandal-resistant features and options to ensure lifts are accessible for the visually impaired.

KSS D – DESIGN FREEDOM AT ITS BEST

The KSS D signalisation family for residential and commercial buildings is ideal when you want to give your lifts an eye-catching visual edge. It features a vast array of options for faceplate colours and finishes, including modern stainless steel and printed hard-coated polycarbonate, as well as landing devices to match.

The KSS D family also includes special graphics package options that support learning and improve accessibility, such as button colour-coding to help children remember floor numbers and large numbers to aid people with visual impairments.

KSS 140 – READY FOR ANYTHING

The KSS 140 vandal-resistant signalisation family is designed for low and mid-rise buildings where the lift equipment needs to be able to cope with tough challenges.

Everything from the faceplate to the buttons, displays, and even the screws are designed to be vandal resistant. KSS 140 signalisation complies with the EN81-71 (Cat 1) standard for vandal-resistant lifts.

KSS H – ACCESSIBLE EXCELLENCE

The horizontal COP, according to EN81-70 Annex B, improves lift accessibility for wheelchair users and those with visual impairments. Installed alongside standard signalisation inside the lift car and accompanied by a handrail, the COP features extra-large buttons with tactile and braille markings and is finished in durable stainless steel.
